Readme.pdf

App can be found on http://csc309fall.herokuapp.com

0. run npm install

How to run the app:
1. Navigate to the directory that contains the project
2. Run node server

Alternatively
1. Navigate to bin/
2. execute /bin/www

The database is hosted on https://mongolab.com.

Note:
Facebook authentication will not work on localhost, since Facebook login allows to have only one active app url which is set to http://csc309fall.herokuapp.com/
Also, since app is in development mode only authorized people can sign with Facebook.
